Vanguard Consulting, LLC provides forensic services and consultation to a wide variety of businesses around the Southeast.

We are able to assist in a wide range of litigation issues.

In criminal matters, our evaluations are typically conducted through interviews with the defendant, the legal team, family and friends, a record and document review, neuropsychological and psychological testing, and behavioral testing. Through this comprehensive evaluation process, we provide several products that can significantly contribute to a course of action.

In civil matters, we are able to assist with mediation, assess child custody issues, conduct home studies, assist with abuse issues, provide supervised visitation, investigate psychological outcomes of medical malpractice, and aid in statistical analysis, and other civil issues.

We can serve in the capacity of *Expert Witness, Mitigation Specialist*, or as a *Case Consultant*.
Contact us to see what is the best fit for your case.
